

A - series plus

Automation two tow two loading and unloading manipulator
+ two tower plate storage warehouse

Performance Profile

It can realize centralized three-dimensional storage of plates, automatic warehousing, automatic picking, automatic splitting, automatic feeding, automatic cutting and other tasks, the whole process of automatic production, can effectively guarantee product quality, improve production efficiency, reduce production costs.

Equipment technical parameters

Specification	3015/4015/4020/6015/6020mm
Numbers of floors	8-13
Load per layer	3T/5T
Maximum load	300KG-3000KG
Air consumption	1.5m³/min
Air source	0.6-0.7Mpa
